

Important Information about Your Accounts

Each loan marked * is an open-end loan. The balance used to compute the FINANCE CHARGE on open-end loans is the daily unpaid principal balance. To get the daily unpaid principal balance, we take the beginning balance each day, add any new advances or debits, and subtract any payments or credits. The FINANCE CHARGE is computed by applying the appropriate daily periodic rate to the daily unpaid loan balance for the number of days the balance remains unpaid.
